DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance:
2. The prior art of record does not teach or suggest an electrical power supply and illumination assembly mounted to only one side of a translucent, static cling mounting film wherein the illumination assembly includes a light source and a switch between the light source and power supply, and the illumination assembly and power supply are not sandwiched between the mounting film and another film.
3. The prior art of record teaches static cling mounting of a non-electrical display sandwiched between two films (Henley), adhesive mounting of a non-electrical display (Pendergast), electrical, illuminated displays adhesively mounted and held on both sides of the mounting film (Lewis et al.), illuminated displays with an external power source (Scheib and Hoffman), however, many of these devices could not be supported by a static cling mounting film, and many of these (and others) would not function properly is assembled on only one side of the mounting surface.
4. Previously withdrawn claims 12 and 13 have been rejoined since generic claim 3 has been indicated as allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
